PROJECTS

World Fire Safety

- February 2026

<https://www.worldfiresafety.com/>

- Built a responsive web application using *React.js, JavaScript, HTML, CSS, Tailwind CSS, Vite*.
- Implemented interactive sections for fire safety awareness and a contact/feedback form.
- Deployed the live website, ensuring smooth performance and mobile-friendly UI.

Sage Restaurant

- January 2026

<https://sagerestaurant.netlify.app/>

- Designed and developed a modern, responsive restaurant website using *HTML, CSS, and JavaScript*.
- Implemented clean UI/UX with smooth navigation, interactive menu sections, and mobile-friendly layouts.
- Deployed the application on Netlify, improving the restaurant's online presence and accessibility for customers.

Weather App

- August 2025

<https://weather-app-3ge9.onrender.com/>

- Created a *real-time weather app* using a *Java Servlet backend* and integrating the *OpenWeather API*.
- Designed a *responsive frontend* with *HTML/CSS/JavaScript*.
- Fetches and displays *live weather data* for any user-specified city.

Portfolio

React.js + Tailwind CSS + Vite
